EXPLANATORY NOTES

This Part contains particulars of the population of each Municipality and Shire and each Non-municipal Town of 1,000 persons or more in New South Wales according to various characteristics of the population.

The grouping into Statistical Divisions identical with that used in State statistical publications has involved the splitting of certain local government areas into two parts, and in such cases particulars are shown in each Statistical Division for the respective part of the local government area within that Division. An explanatory note is also added. The local government areas and the Divisions concerned are as follows:—

Municipality of Blacktown	..	..	..	..	..	{ Metropolitan Area

A map showing the location and composition of each Statistical Division and a detailed map of the Metropolitan Area of Sydney, together with an index to facilitate reference to any local government area or non-municipal town for which particulars are shown, are inserted at the end of this Part.

Under the system of local government in New South Wales there were, at Census date, 92 Municipalities and 133 Shires. Municipalities are usually urban in nature, but some are, for Census purposes, classified as partly rural. In these cases the part regarded as rural has been clearly indicated in the table. Shires, on the other hand, are usually rural in nature, but within shires Non-municipal Towns of 1,000 persons or more are, for Census purposes, regarded as urban and shown separately. They are indicated in the table by the letters "N.M." In addition, portion of Lake Macquarie Shire is regarded as urban and has been included with Newcastle Urban Area.

In addition to the area covered by the local government system, there was an unincorporated area of 36,967 square miles which constituted 12 per cent. of the total area of the State, but contained only 0.06 per cent. of the total population.

Statistics shown in this Part relate to local government areas as constituted at 30th June, 1961 and do not take account of boundary changes since that date.

Particulars of full-blood aboriginals are excluded throughout.

Because of the limitation of space and the need for uniform presentation of data it has not been possible to publish more detailed information for local government areas in each table of this Part.

(a) "Not at Work" includes those who stated that they were usually engaged in work, but were not actively seeking a job at the time of the Census by reason of sickness, accident, etc. or because they were on strike, changing jobs or temporarily laid off, etc. It includes also persons able and willing to work but unable to secure employment, as well as casual and seasonal workers not actually in a job at the time of the Census. The numbers shown as "Not at Work", therefore, do not represent the number of unemployed available for work and unable to obtain it. (b) Part in Metropolitan Area, part in Balance of Cumberland Division - See Explanatory Notes.

(a) "Not at Work" includes those who stated that they were usually engaged in work, but were not actively seeking a job at the time of the Census by reason of sickness, accident, etc. or because they were on strike, changing jobs or temporarily laid off, etc. It includes also persons able and willing to work but unable to secure employment, as well as casual and seasonal workers not actually in a job at the time of the Census. The numbers shown as "Not at Work", therefore, do not represent the number of unemployed available for work and unable to obtain it. (b) Part in Metropolitan Area, part in Balance of Cumberland Division - See Explanatory Notes. (c) Part in Balance of Cumberland Division, part in South Coast Division - See Explanatory Notes.

(a) "Not at Work" includes those who stated that they were usually engaged in work, but were not actively seeking a job at the time of the Census by reason of sickness, accident, etc. or because they were on strike, changing jobs or temporarily laid off, etc. It includes also persons able and willing to work but unable to secure employment, as well as casual and seasonal workers not actually in a job at the time of the Census. The numbers shown as "Not at Work", therefore, do not represent the number of unemployed available for work and unable to obtain it. (d) For total population in Newcastle Urban Area see State Summary at end of Table.

(a) "Not at Work" includes those who stated that they were usually engaged in work, but were not actively seeking a job at the time of the Census by reason of sickness, accident, etc. or because they were on strike, changing jobs or temporarily laid off, etc. It includes also persons able and willing to work but unable to secure employment, as well as casual and seasonal workers not actually in a job at the time of the Census. The numbers shown as "Not at Work", therefore, do not represent the number of unemployed available for work and unable to obtain it. (f) Part in Central Tableland Division, part in Central Western Slope Division - See Explanatory Notes. (g) On 1st January, 1962 the boundaries of the City of Albury were extended to include portion of the Shire of Hume (including Lavington N.M.)

(a) "Not at Work" includes those who stated that they were usually engaged in work, but were not actively seeking a job at the time of the Census by reason of sickness, accident, etc. or because they were on strike, changing jobs or temporarily laid off, etc. It includes also persons able and willing to work but unable to secure employment, as well as casual and seasonal workers not actually in a job at the time of the Census. The numbers shown as "Not at Work", therefore, do not represent the number of unemployed available for work and unable to obtain it.
